TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 19, 2018

Bridget Bohac, Chief Clerk
Texas Commission on Environmental Quality
Office of the Chief Clerk (MC-105)
P.O. Box 13087
Austin, Texas 78711-3087

RE: **VULCAN CONSTRUCTION MATERIALS, LLC**
TCEQ DOCKET NO. 2018-1303-AIR

Dear Ms. Bohac:

Enclosed for filing is the Office of Public Interest Counsel's Response to Requests for Hearing and Request for Reconsideration in the above-entitled matter.

Sincerely,

A handwritten signature in black ink that reads "Pranjali".

Pranjal M. Mehta, Attorney
Assistant Public Interest Counsel

§

**BEFORE THE

TEXAS COMMISSION ON

ENVIRONMENTAL QUALITY**

**THE OFFICE OF PUBLIC INTEREST COUNSEL'S RESPONSE
TO REQUESTS FOR HEARING AND REQUEST FOR RECONSIDERATION**

TO THE HONORABLE MEMBERS OF THE TEXAS COMMISSION ON
ENVIRONMENTAL QUALITY:

The Office of Public Interest Counsel (OPIC) of the Texas Commission on Environmental Quality (Commission or TCEQ) files this Response to Requests for Hearing and Request for Reconsideration in the above-referenced matter and respectfully shows the following.

I. INTRODUCTION

A. Background of Facility

Vulcan Construction Materials, LLC (Vulcan or Applicant) has applied to the TCEQ for a New Source Review Authorization under Texas Clean Air Act (TCAA) § 382.0518. This permit will authorize the Applicant to construct a rock crushing plant that may emit air contaminants. The plant will be located on property whose northeast corner is the southwest corner of the intersection of Highway 46 and Farm-to-Market Road 3009, Bulverde, Comal County, Texas. The Applicant has represented that the plant will be located on the property at the following coordinates: Latitude 29.768401, Longitude -98.308153. Contaminants authorized under this permit include particulate matter (PM₁₀) and 2.5 microns or less (PM_{2.5}), carbon monoxide, nitrogen oxides (NO_x), organic compounds, and sulfur dioxide (SO₂).

B. Procedural Background

The TCEQ received this application on June 27, 2017. On July 5, 2017, the Executive Director (ED) of TCEQ declared the application administratively complete. The Notice of Receipt and Intent to Obtain an Air Quality Permit (NORI) was published in English on July 31, 2017, in the *San Antonio Express-News* and in Spanish on July 28, 2017, in *La Prensa Comunidad del Valle*. A combined Notice of Application and Preliminary Decision for an Air Quality Permit and notice of public meeting was published in English on January 26, 2018, in the *San Antonio Express-News* and in Spanish on January 26, 2018, in *La Prensa Comunidad del Valle*. A public meeting was held on February 27, 2018 in New Braunfels, Texas. The public comment period ended on February 27, 2018. The Chief Clerk mailed the ED's Decision and Response to Comments (RTC) on September 14, 2018. The deadline to request a contested case hearing was October 14, 2018.

II. APPLICABLE LAW

This application was filed on or after September 1, 2015, and is therefore subject to the procedural rules adopted pursuant to Senate Bill 709. Tex. S.B. 709, 84th Leg., R.S. (2015). For SB 709 applications, Texas Water Code (TWC) Section 5.115(a)(a-1)(2)(B) provides the Commission may not find that a hearing requestor is an affected person unless the hearing requestor timely submitted comments on the application. Texas Government Code Section 2003.047(e -1) further provides that each issue referred by the Commission must have been raised by an affected person in a timely comment filed by that affected person. The Commission's Chapter 55 rules implement these statutory requirements and other provisions of SB 709.

Under Title 30, Texas Administrative Code (TAC) § 55.201(c), a hearing request by an affected person must be in writing, must be timely filed, may not be based on an issue raised solely in a public comment which has been withdrawn, and, for applications filed on or after September 1, 2015, must be based only on the affected person's timely comments.

Section 55.201(d) states that a hearing request must substantially comply with the following:

- (1) give the name, address, daytime telephone number, and, where possible, fax number of the person who files the request;
- (2) identify the person's personal justiciable interest affected by the application, including a brief, but specific, written statement explaining in plain language the requestor's location and distance relative to the proposed facility or activity that is the subject of the application and how and why the requestor believes he or she will be adversely affected by the proposed facility or activity in a manner not common to members of the general public;
- (3) request a contested case hearing;
- (4) list all relevant and material disputed issues of fact that were raised by the requestor during the public comment period and that are the basis of the hearing request. To facilitate the Commission's determination of the number and scope of issues to be referred to hearing, the requestor should, to the extent possible, specify any of the ED's responses to the requestor's comments that the requestor disputes, the factual basis of the dispute, and list any disputed issues of law; and
- (5) provide any other information specified in the public notice of application.

Under 30 TAC § 55.203(a), an "affected person" is one who has a personal justiciable interest related to a legal right, duty, privilege, power, or economic interest affected by the application. An interest common to members of the general public does not qualify as a personal justiciable interest. Section 55.203(c) provides relevant factors to be considered in determining whether a person is affected. These factors include:

- (1) whether the interest claimed is one protected by the law under which the application will be considered;

- (2) distance restrictions or other limitations imposed by law on the affected interest;
- (3) whether a reasonable relationship exists between the interest claimed and the activity regulated;
- (4) likely impact of the regulated activity on the health, safety, and use of property of the person;
- (5) likely impact of the regulated activity on use of the impacted natural resource by the person;
- (6) for a hearing request on an application filed on or after September 1, 2015, whether the requestor timely submitted comments on the application that were not withdrawn; and
- (7) for governmental entities, their statutory authority over or interest in the issues relevant to the application.

Under § 55.203(d), to determine whether a person is an affected person for the purpose of granting a hearing request for an application filed on or after September 1, 2015, the Commission may also consider the following:

- (1) the merits of the underlying application and supporting documentation in the administrative record, including whether the application meets the requirements for permit issuance;
- (2) the analysis and opinions of the ED; and
- (3) any other expert reports, affidavits, opinions, or data submitted by the ED, the applicant, or hearing requestor.

For applications filed on or after September 1, 2015, 30 TAC § 55.205(b) states that a hearing request by a group or association may not be granted unless all of the following requirements are met:

- (1) comments on the application are timely submitted by the group or association;
- (2) the request identifies, by name and physical address, one or more members of the group or association that would otherwise have standing to request a hearing in their own right;
- (3) the interests the group or association seeks to protect are germane to the organization's purpose; and

- (4) neither the claim asserted nor the relief requested requires the participation of the individual members in this case.

For an application filed on or after September 1, 2015, § 55.211(c)(2)(A)(ii) provides that a hearing request made by an affected person shall be granted if the request raises disputed issues of fact that were raised by the affected person during the comment period, that were not withdrawn by filing a withdrawal letter with the Chief Clerk prior to the filing of the ED's RTC, and that are relevant and material to the Commission's decision on the application. Under § 55.211(c)(2)(B)-(D), the hearing request, to be granted, must also be timely filed with the Chief Clerk, pursuant to a right to hearing authorized by law, and comply with the requirements of § 55.201.

Any person may file a request for reconsideration of the ED's decision under 30 TAC § 55.201(e). The request must be in writing and filed with the Chief Clerk no later than 30 days after the Chief Clerk mails the ED's decision and RTC. The request must expressly state that the person is requesting reconsideration of the ED's decision and give reasons why the decision should be considered.

III. DISCUSSION

A. Request for Reconsideration

On October 14, 2018, Kyra N. Faught filed a timely request for reconsideration of the ED's decision regarding the proposed permit. The request for reconsideration states issues and concerns about potential adverse health effects on her 3-year-old son. The request for reconsideration further states concerns about the compliance history of the Applicant. These issues and concerns are within the Commission's jurisdiction. As discussed further below, OPIC recommends that issues concerning potential adverse health effects and compliance history be referred to the State Office of Administrative Hearings (SOAH) for a contested case hearing.

However, at this point in the process prior to further development of an evidentiary record through a contested case hearing, OPIC cannot conclude whether the application should be granted or denied in light of the concerns raised in the request for reconsideration. Therefore, OPIC must recommend denial of the request for reconsideration. OPIC further discusses the hearing requests below.

B. Determination of Affected Person Status

Hearing Requestors with no timely filed comments

Comal Independent School District

Comal Independent School District Board of Trustees (District) filed a request for contested case hearing and affected person status on October 15, 2018. The hearing request states that the District currently has two existing school sites within five miles of the proposed facility as well as a potential future elementary school site within three miles of the proposed facility. The hearing request raises concerns about long and short term adverse health effects on the children attending these schools. The Texas Education Code vests the trustees of an independent school district with authority to sue and be sued, as well as authority to "...adopt rules for the safety and welfare of students, employees, and property..." Tex. Educ. Code §§ 11.151(a) & 37.102(a). However, to be considered as an affected person, the hearing requestor must have timely submitted comments on the application. TWC § 5.115(a)(a-1)(2)(B), 30 TAC § 55.201(c). The record indicates that the District did not file comments during the public comment period for this application. Therefore, OPIC cannot recommend that the District is an affected person in this case.

Individual Hearing Requestors with no timely filed comments

The Commission received timely hearing requests from Adrah Lea Anzalotta, Thomas Martin Chaney, Brigitte Deyle, Ora Lee Frisch, Bruce R. Glover, Mrs. Carol Glover, Kendall Jaroszewski, Kevin MacDonald, Dr. Meredith Anne McGuire, Connie Reyes, Edrick Reyes, Eugene Reyes, Dennis W. Seay, Julie M. Seay, Travis J. Seay, Rick Shimon, James V. Spickard, Laura Terrell, and Stephen Terrell. The record indicates that these hearing requestors did not file comments during the public comment period for this application. As discussed above, to be considered as an affected person, the hearing requestor must have timely submitted comments on the application. TWC § 5.115(a)(a-1)(2)(B), 30 TAC § 55.201(c). Therefore, OPIC cannot recommend that these individual hearing requestors are affected persons in this case.

Comal County

On August 15, 2017, Comal County (County) filed a request for contested case hearing raising concerns about air quality and environmental impact on the County's citizens. The governing body of a municipality or the commissioners court of a county may enforce any law that is reasonably necessary to protect the public health. Texas Health and Safety Code (THSC) § 121.003(a). In light of THSC § 121.003(a), OPIC finds that the County has statutory authority over or interest in issues relevant and material to this application. 30 TAC § 55.203(c)(7). The County's statutory interest in protecting public health includes concerns about air quality and the environmental impact on the County's citizens. Therefore, OPIC recommends the Commission find the County is an affected person under 30 TAC § 55.203(c)(7).

City of Bulverde

The City of Bulverde filed a request for contested case hearing dated October 12, 2018. The hearing request included a map showing the Bulverde city limits and extraterritorial

jurisdiction (ETJ), as well as Resolution no. 305 expressing opposition to the facility based on the City's interests in air quality and public health. During the public comment period, on January 12, 2018, the city submitted Resolution no. 300 which expressed similar concerns about the negative impacts to the citizens of Bulverde.

The hearing request relies on the map to show that a portion of the plant site lies within Bulverde's ETJ. The hearing request states that Bulverde is an affected person because the city has the statutory right and obligation to promote the health, safety, and general welfare of its inhabitants and of those who reside in the ETJ. The hearing request cites to statutory authority in support of Bulverde's arguments for affected person status. (Tex. Loc. Gov't Code §§ 42.001, 211.001, 271.042(a), 551.002(c) and THSC §§ 121.003(a), 382.113). OPIC agrees that Bulverde has statutory authority over or interest in issues related to the health, safety and welfare of its citizens that are relevant and material to this application. Therefore, OPIC recommends that the Commission find the City of Bulverde is an affected person under 30 TAC § 55.203(c)(7).

City of New Braunfels

The City of New Braunfels filed a request for contested case hearing on February 15, 2018. The hearing request raises concerns about air quality and environmental impact on the Comal County residents in the area of the proposed facility. However, the hearing request does not show the plant site is within the City of New Braunfels' city limits and/or extraterritorial jurisdiction, does not state that Comal County residents potentially affected by the facility reside within the city limits or ETJ of New Braunfels, and does not otherwise assert that use of city facilities or programs would be affected. Therefore, in the absence of any additional information that may be included in a timely filed reply, OPIC cannot find that City of New Braunfels is an affected person.

Friends of Dry Comal Creek and Stop 3009 Vulcan Quarry

A combined hearing request has been submitted by two different groups, Friends of Dry Comal Creek and Stop 3009 Vulcan Quarry. To gain standing as a group, Friends of Dry Comal Creek and Stop 3009 Vulcan Quarry (referred collectively as 'Groups') must present at least one member of each group who would individually qualify as affected persons. 30 TAC § 55.205(a)(1). The Groups named Milann & Pru Guckian and Liz M. James as members of each organization who would have standing to request a hearing on their own. The hearing request raises concerns about adverse effects on the members' health and use and enjoyment of their property. The request states the identified members live immediately to the east of and across the street from the plant site. The map prepared by ED confirms their location. Their proximity to the proposed facility and stated concerns show that they could be affected in a manner not common to the general public and distinguishes their interests from interests common to the general public.

The second requirement for group standing is the interests the group seeks to protect must be germane to the organization's purpose. 30 TAC § 55.205(a)(2). The hearing request states that each group exists to promote and safeguard a desirable natural environment for its members. OPIC finds that the interests these groups seek to protect are germane to the groups' purpose and the groups have satisfied the second requirement for group standing.

Finally, as required by 30 TAC § 55.205(a)(3), neither the claim asserted by the Groups nor the relief requested by the Groups requires that participation of individual members. The Groups have satisfied the § 55.205 requirements for group standing, and therefore, OPIC recommends that the Commission find that both Friends of Dry Comal Creek and Stop 3009 Vulcan Quarry are affected persons in this matter.

Smithson Valley Heritage Oaks Property Owners Association

The Commission received a timely hearing request from Smithson Valley Heritage Oaks Property Owners Association (Association). The hearing request states the location of the requestors' property is within 215 feet of the proposed rock crushing plant. The hearing request raises concerns about air quality and adverse health effects on Association members and their livestock. The hearing request is filed by Elizabeth Luker Martin. As discussed below in analyzing the affected person status for Group A requestors, Elizabeth Luker Martin would individually qualify as an affected person. Therefore, the Association meets the requirement of presenting at least one member who would individually qualify as affected persons. 30 TAC § 55.205(a)(1). OPIC finds that the interests raised by the Association are germane to the Association' purpose and the Association has satisfied the second requirement for group standing. Also, as required by 30 TAC § 55.205(a)(3), neither the claim asserted by the Association nor the relief requested by the Association requires that participation of individual members. Therefore, OPIC finds that the Association has satisfied the § 55.205 requirements for group standing and recommends that the Commission find the Association is an affected person in this matter.

Group A requestors (individuals within close proximity and with stated personal justiciable interests)

The Commission received timely hearing requests from Kathleen Banse, Davin Bell, Michael Bell, Ron & Elaine Bigbee, Troy Calvin Brand, Billy Wayne Burton, Windell Cannon, William B. Cobb, Herbert A. Coley, Becky L. Cox, Donna H. Gibson Dell, James Kevin & Michele M Drake, Robin Ecks, Linda Everingham, Deborah Farrar, Deborah Foster, Charles David & Shirley Yvonne Gerdes, Edward A & Debbie Sabins Grun, Milann & Pru

Guckian, Alan & Kathryn Hammack, Douglas Harrison, Ruby Hartmann, Prentisotis Hibler, Kenneth & Diane Higby, Cobby Herb, Chris Hopmann, Liz James, Craig Johnson, Melissa & Paul Laster, Elizabeth & Ted Martin, Ellen McClellan, Debra & Robert McSweeney, Mary Jean Nebergall, Robert Francis Nebergall, Kira Olson, Nathan, Karis, Kennedy Olson, Terry, Michael & Peri Olson, Laura Allen Quisenberry, Jakki M. Saul, Robbi E. Shipley, Gregory Snider, Sylvia Walker, Renee Wilson, Deborah & Michael J, Doug Wayne & Sandra Dee Zimmerman and Steve Wayne & Sandra Zimmerman. OPIC refers to these requestors collectively as Group A requestors. Group A requestors raise concerns regarding air quality, health effects, noise, compliance history of the applicant and adverse health effect on livestock. The map prepared by the ED shows Group A requestors located within a proximity of less than two miles from the proposed facility.

Group A requestors' close proximity to the proposed plant, combined with their concerns regarding air quality and health effects, demonstrates they have a personal justiciable interest in this matter. Their concerns about air quality and health effects are interests protected by the law under which this application will be considered. A reasonable relationship exists between these interests and the regulation of air contaminants. Therefore, OPIC finds that Group A requestors qualify as affected persons in this matter.

Group B requestors (individuals within close proximity but with no stated personal justiciable interest)

The Commission received timely hearing requests from Gary B. Armstrong and Daniel J. Laroe. OPIC refers to these requestors collectively as Group B requestors. The map prepared by the ED shows Group B requestors located within close proximity of the proposed facility. Proximity to the facility may distinguish a requestor's interest from interests of the general

public. 30 TAC § 55.203(a). However, an interest must be stated in a hearing request that relates to a legal right, duty, privilege, power or economic interest affected by the application. 30 TAC §§ 55.201(d)(2), 55.203(a). Group B requestors do not state an interest that may be affected by the application. For these reasons, their hearing requests fail to comply with the requirements of 30 TAC § 55.201(d). Therefore, OPIC recommends that the Commission find that the Group B requestors do not qualify as affected persons.

Group C requestors (individuals who are not within close proximity)

The Commission also received timely hearing requests from Karen Albright, Melissa Alonzo, Hector & Sabrina Amaya, Rick D Aristeguieta, Lauri Sue Azzaro, Sean Vincent Azzaro, Gary Baker, Clifford G. Barr, Ali Baugh, Katherine Beshore, Larry & Nanncy Ann Beward, Kathryn A Black, Dawson Bremer, Harold Broth, Kelly Brown, Ginger Browning, Barbara Brunson, Katy Bryant, Alyssa D Brysch, Kristine Brzozowski, David Bullock, Julie Burbank, Teri Callihan, Robert Carrillo, Hugo Carvajal, Russell Cason, Barron Casteel, Mason Cawley, Lynn Chapman, Yvonne L Chapman, James Albert Chew, Wes Clark, Shirley Corkill, Ayden Shane & Belinda Correa, Catherine Croom, Joel Cunningham, Rocco Defelice, Teresa Dophied, David & Tiffany Drewa, Susan L Dunlap, Donna Eccleston, D. Lee Edwards, Dillon Ellis, Thomas Banon & Kim Ellison, David Fletcher, Nicole M. Geiger, Alan & Kathy Gibbs, Cheryl A. Gilpin, Cece Given, Andrea M. Gonzalez, Terry L. Graham, David Lee & Debbie Granato, Thomas Greneaux, Scott Haag, Duane R. Hall, Jacey Hall, Jaclyn Hall, McKenna Hall, Nathanael Hall, Terri Lynn Hall, Susan Halsell, Grace Hannemann, Rhonda Harris, Matthew Harrison, Sally Harvey, Veronica Hawk, Lynda L Heikes, Eric Hermann, Sabrina Houser-Amaya, Jeanne Howe, Sarah Kassis Izzat, Steven Izzat, Mary Lou Jenkins, Kendra Johnson, Richard Keady, Kilian Kean, Mike Krup, Clint Laubach, Byron L Leonard, Roger Phelps

Mabee, Madeleine Maciula, Christine M. Magers, Maureen A. Martinez, Brian Mather, Terressa Mathews, Michael L. & Rose Maurer, Carrie Mauthe, Rachel Mayfield, William Mayfield, Sheryl Lynn Mays, Hilary McVicker, Dawn Medeiros, Daniel Meneilly, Steve Middlecamp, Balous Miller, Linda Holley Mohr, Gloria Morse, Bruce & Grace Murphy, Butch Newman, Linda Sue Newman, Wendy Norris, Sandy & Teresa Nott, Deborah K. Ohlrich, Jack Olivier, Corissa Owens, Cole Paveglio, Annalisa Peace, Patrick E Pence, David Perelstein, Wayne Peters, Stephen Petty, Paul Petrino, Debra Phelps, Shawonna Poor, Johanna Posey, William Kyle Pringle, Phelon Tyler Rammell, Deborah Reid, Robert Remey, Teresa Rogers, Lindsey Saathoff, Vallye Sawyer, Arthur Seago, Elias & Grace Shaer, Howard Shipman, Mike B. Stemig, Margie E. Spaeth, Wilbert D. Spaeth, Nova Stephenson, Trudy Striegel, Connie Terao, Jeff R. Thomas, Carl Thompson, Mary & R. Trujillo, Amanda Trussell, Tina Tsui, Dragos & Mariana Ungurean, Meiling “Millie” Vonstultz, Francesca W. Watson, and Benton & Kathryn Zwart. OPIC refers to these requestors collectively as Group C requestors. The map prepared by the ED appears to locate Group C requestors at distances of approximately two miles or greater from the proposed facility. OPIC notes that there are no specific distance limitations applicable to who may be considered an affected person for purposes of this application; however, given the nature and volume of emissions to be permitted and considering Group C’s distance from the facility, OPIC cannot find Group C requestors are affected persons.

In summary, OPIC finds that the following requestors are affected persons: Comal County; City of Bulverde; Friends of Dry Comal Creek; Stop 3009 Vulcan Quarry; Smithson Valley Heritage Oaks Property Owners’ Association; and Group A Requestors.

C. Issues Raised by the Affected Persons

The following issues were raised by one or more affected persons in timely filed hearing requests:

1. Whether the proposed facility will adversely affect the health and safety of requestors, their family, animals and livestock?
2. Whether the proposed facility will adversely affect the use and enjoyment of requestors' property?
3. Whether the proposed facility will adversely affect wildlife, vegetation, flora and fauna?
4. Whether the proposed facility will adversely affect air quality?
5. Whether the proposed facility will adversely affect water quality?
6. Whether the proposed facility will generate noise pollution?
7. Whether the proposed facility will create traffic problems for the requestors?
8. Whether the proposed facility will decrease property values?
9. Whether the Applicant's compliance history precludes issuance of the draft permit?
10. Whether the draft permit includes emissions from maintenance, startup, and shutdown activities?

D. Issues Raised in the Comment Period

Issues Nos. 1 to 10 raised in the hearing requests were raised in the comment period by the requestors and have not been withdrawn. 30 TAC §§ 55.201(c) & (d)(4)(B), 55.211(c)(2)(A).

E. Disputed Issues

There is no agreement between the hearing requestors and the ED on the issues raised in the hearing requests, thus, the issues remain disputed.

F. Issues of Fact

If the Commission considers an issue to be one of fact, rather than one of law or policy, it is appropriate for referral to hearing if it meets all other applicable requirements. 30 TAC § 55.211(c)(2)(A). All the issues raised by the requestors are issues of fact.

G. Relevant and Material Issues

The hearing requests raise issues that are relevant and material to the Commission's decision under the requirements of 30 TAC §§ 55.201(d)(4)(B) and 55.211(c)(2)(A)(ii). To refer an issue to SOAH, the Commission must find that the issue is relevant and material to the Commission's decision to issue or deny this permit. Relevant and material issues are those governed by the substantive law under which this permit is to be issued. *Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248–51 (1986).

The TCEQ is responsible for the protection of air quality under the TCAA and accompanying administrative rules. The purpose of the TCAA is “to safeguard the state’s air resources from pollution by controlling or abating air pollution and emission of air contaminants, consistent with the protection of public health, general welfare, and physical property, including the esthetic enjoyment of air resources by the public and the maintenance of adequate visibility.” THSC § 382.002. In addition, “[n]o person shall discharge from any source whatsoever one or more air contaminants or combinations thereof, in such concentration and of such duration as are or may tend to be injurious to or to adversely affect human health or welfare, animal life, vegetation, or property, or as to interfere with the normal use and enjoyment of animal life, vegetation, or property.” 30 TAC § 101.4.

Issues No. 1, 2, 3, 4 and 10 in § IV.C are relevant and material issues because they relate to the effects of air quality on human health, vegetation, and the use and enjoyment of property.

Issue No. 5 is not relevant and material because water quality is outside the scope of the TCAA. Issues No. 6, 7 and 8 are not relevant and material because noise, traffic and property values are outside the Commission's jurisdiction. Finally, Issue No. 9 is relevant and material because Texas Health & Safety Code § 382.0518 provides that the Commission may consider the applicant's compliance history.

H. Issues Recommended for Referral

OPIC recommends that the following disputed issues of fact be referred to SOAH for a contested case hearing:

1. Whether the proposed facility will adversely affect the health and safety of requestors, their family, animals and livestock?
2. Whether the proposed facility will adversely affect the use and enjoyment of requestors' property?
3. Whether the proposed facility will adversely affect wildlife, vegetation, flora and fauna?
4. Whether the proposed facility will adversely affect air quality?
5. Whether the Applicant's compliance history precludes issuance of the draft permit?
6. Whether the draft permit includes emissions from maintenance, startup, and shutdown activities?

I. Maximum Expected Duration of Hearing

Commission Rule 30 TAC § 80.6(b)(5) requires that any Commission order referring a case to SOAH specify the maximum expected duration of the hearing by stating a date by which the judge is expected to issue a proposal for decision. The rule further provides that no hearing shall be longer than 180 days from the first day of the preliminary hearing to the date the proposal for decision is issued. To assist the Commission in stating a date by which the judge is expected to issue a proposal for decision, and as required by 30 TAC § 55.209(d)(7), OPIC

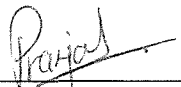

estimates that the maximum expected duration of a hearing on this application would be 180 days from the first date of the preliminary hearing until the proposal for decision is issued.

IV. CONCLUSION

OPIC recommends granting the hearing requests from the Comal County, City of Bulverde, Friends of Dry Comal Creek, Stop 3009 Vulcan Quarry, Smithson Valley Heritage Oaks Property Owners' Association, and the individual hearing requestors listed under the Group A heading in Section III. B above. Further, OPIC recommends referring to SOAH the issues listed in § IV. H for a contested case hearing with a duration of 180 days.
