

# Stop 3009 Vulcan Quarry

## Easy Guide for Affected Person Request

Arrive at the courthouse early. Upon arrival, **you must complete the registration form** and indicate on the form your request to be an affected party. When the judge calls you, explain how you are affected using the answers below—and any additional information.

- **Where do you live?** \_\_\_\_\_  
(your address)
- **How far is this from the crusher location?** \_\_\_\_\_  
(e.g., 3.2 miles from the rock crusher and 2.4 miles from the Vulcan property)
- **How will this affect you personally?**

Rock crusher will produce PM (particulate matter) air pollution. Studies show this is strongly linked to lung cancer, COPD, asthma, emphysema, and heart disease.

Particulate matter can remain airborne for long periods of time and be carried several miles or more from the source. I live close to the crusher, so emissions will be more concentrated at my home and I will be affected more than the general public.

I live downwind from the crusher location, especially during the months of \_\_\_\_\_ when the wind blows primarily/frequently from the \_\_\_\_\_.

Optional: Additionally, I am at increased risk due to my \_\_\_\_\_

\_\_\_\_\_  
(e.g., advanced age, young age, sensitive lungs, existing asthma, existing lung issues, COPD, cancer, any breathing problems current or suffered in past, etc.)

Optional: Additionally, I will be affected since I \_\_\_\_\_

\_\_\_\_\_  
(e.g., raise livestock, raise food for my consumption, provide care to children, quality of life issues, etc. )
